

School of Business

Associate in Science, Business Management (ASBM)

The Associate in Science, Business Management Program incorporates specialty courses in accounting, management, marketing, international business, and computer information systems. The courses provide students with the knowledge of management concepts, procedures, operations, and problem-solving techniques needed for employment or advancement. The program also prepare students for the pursuit of a bachelor's degree and beyond in business administration to become future leaders and managers in a dynamic, globally integrated business world.

Program Objectives

Upon completion of the program, the student should be able to:

1. Acquire the basic understanding of the business and management
2. Utilize quantitative and qualitative tools and methodologies to support business management and organizational decision making
3. Gain an insight into the economic, political , ethical, legal and regulatory contexts of organizational management policies
4. Develop communication skills
5. Assist in identifying business administration problems and opportunities and formulate an action plan
6. Analyze the information content of organizational processes and use information technology
7. Continue education through life-long learning

Admission Requirements:

Students desiring admission to the Associate in Science in Business Management program must meet the following requirements:

1. Completed their high school education or G.E.D. with a minimum G.P.A. of 2.0 or better.

Please read the "Notice to Prospective Degree Program Students" on next page.

“NOTICE TO PROSPECTIVE DEGREE PROGRAM STUDENTS

This institution is approved by the Bureau for Private Postsecondary Education to offer degree programs. To continue to offer degree programs, this institution must meet the following requirements:

- Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program.

If this institution stops pursuing accreditation, it must:

- Stop all enrollment in its degree programs, and
- Provide a teach-out to finish the educational program or provide a refund.

An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.

California Education Code (CEC) §94897(p) requires Kingston University to disclose to prospective students prior to enrollment that Kingston University and its degree and certificate programs are unaccredited, and any known limitations of the degree, including all of the following:

1. A graduate of the degree program may be ineligible to sit for applicable licensure exam in California and other states.
2. A degree program that is unaccredited or a degree from an unaccredited institution is not recognized for some employment positions, including, but not limited to, positions with the State of California.
3. A student enrolled in an unaccredited institution is not eligible for federal financial aid programs. Kingston University does not currently participate in any federal financial assistance programs. The University does not provide financial aid to students.”
